25X1X

DATE OF INFO: 11/11/68

SUPPLEMENT TO

This document is hereby regraded to
CONFIDENTIAL in accordance with the
letter of 16 October 1973 from the
Director of Central Intelligence.

The following figures were copied from official documents prepared for SMA by the Bureau of Statistics of the Chamber of Commerce in Weimar. The statistics deal with production by German firms in Thuringia in June 1948 but also give as comparative figures total production since the beginning of 1948, since the beginning of the quarter, and in the corresponding quarter of 1947. In addition, the quarter quota is given and the amount of production handled by the firms in their own plants (verarbeitet in eigenen Betrieb). All figures are given both in quantity and in 1000 RM.

25X1A

Comment: Since the documents from which the figures were copied were in some places practically illegible, some of the figures may be incorrectly given. Although every effort was made for accuracy, errors probably occurred where totals could not be checked, particularly in the quantities columns. In cases where incorrect totals occurred in the original document, the correct total is given in parentheses following the figures from the text.
